¹Estimated download times are calculated at the maximum attainable speed and assumes that speed being available for the duration of the download. Speeds are delivered to your FibreNest Hub and may not be achieved when using a device that is incapable of communicating at that speed. Circular graphical illustrations represent proportional segments of time based on the longest and shortest download times displayed. ²FibreNest will not increase the price of your package during the minimum term of your contract unless required to by a change in law or regulatory obligations, for example, due to an increase in the rate of VAT. FibreNest does not plan automatic price increases to apply at the end of your minimum term; however, the basic price of our packages may vary over time and may take effect before you enter a subsequent minimum term with us.
