

Persimmon

Together, we make your home

Finishing Touches

Beautifully designed homes. Individually perfected by you.

Version 10.2

Built by us. Styled by you.

The exciting time has come for you to add your own personal sense of style to your new Persimmon home; to add those all-important Finishing Touches.

Reasons to choose your Finishing Touches now:

- ③ Everything will be styled just the way you want it, before you move in
- ③ It's all professionally installed by the Persimmon build team during the build process
- ③ All your Finishing Touches are covered within your 2-year Persimmon Homes guarantee
- ③ Retro-fitting anything after you've moved in will never result in the same seamless finish
- ③ Employing trades in your home after you've moved in means mess, hassle and cost
- ③ If you choose to upgrade items from our standard spec, you only pay the difference, not the full cost of the upgrade.

Together,
let's style your home.

Explore

06 Your kitchen

Upgrade to designer-style cabinetry, high-spec appliances, stunning quartz worksurfaces, granite sinks and colour-coordinated taps. Not forgetting tiling and flooring too!

32 Your bathroom

Upgrade existing showers and add new ones too — how about an app-controlled shower you can switch on before you get in? You'll love our towel rails and tiling options too.

40 Your living space

From made-to-measure wardrobes and home office furniture, to designer radiators and integrated lighting... all the things that bring your new home together.

60 Your outdoors

Finishing Touches upgrades and additions extend beyond the back door; there's lots to enhance your garden and garage so you can enjoy your outdoor space as soon as you move in.

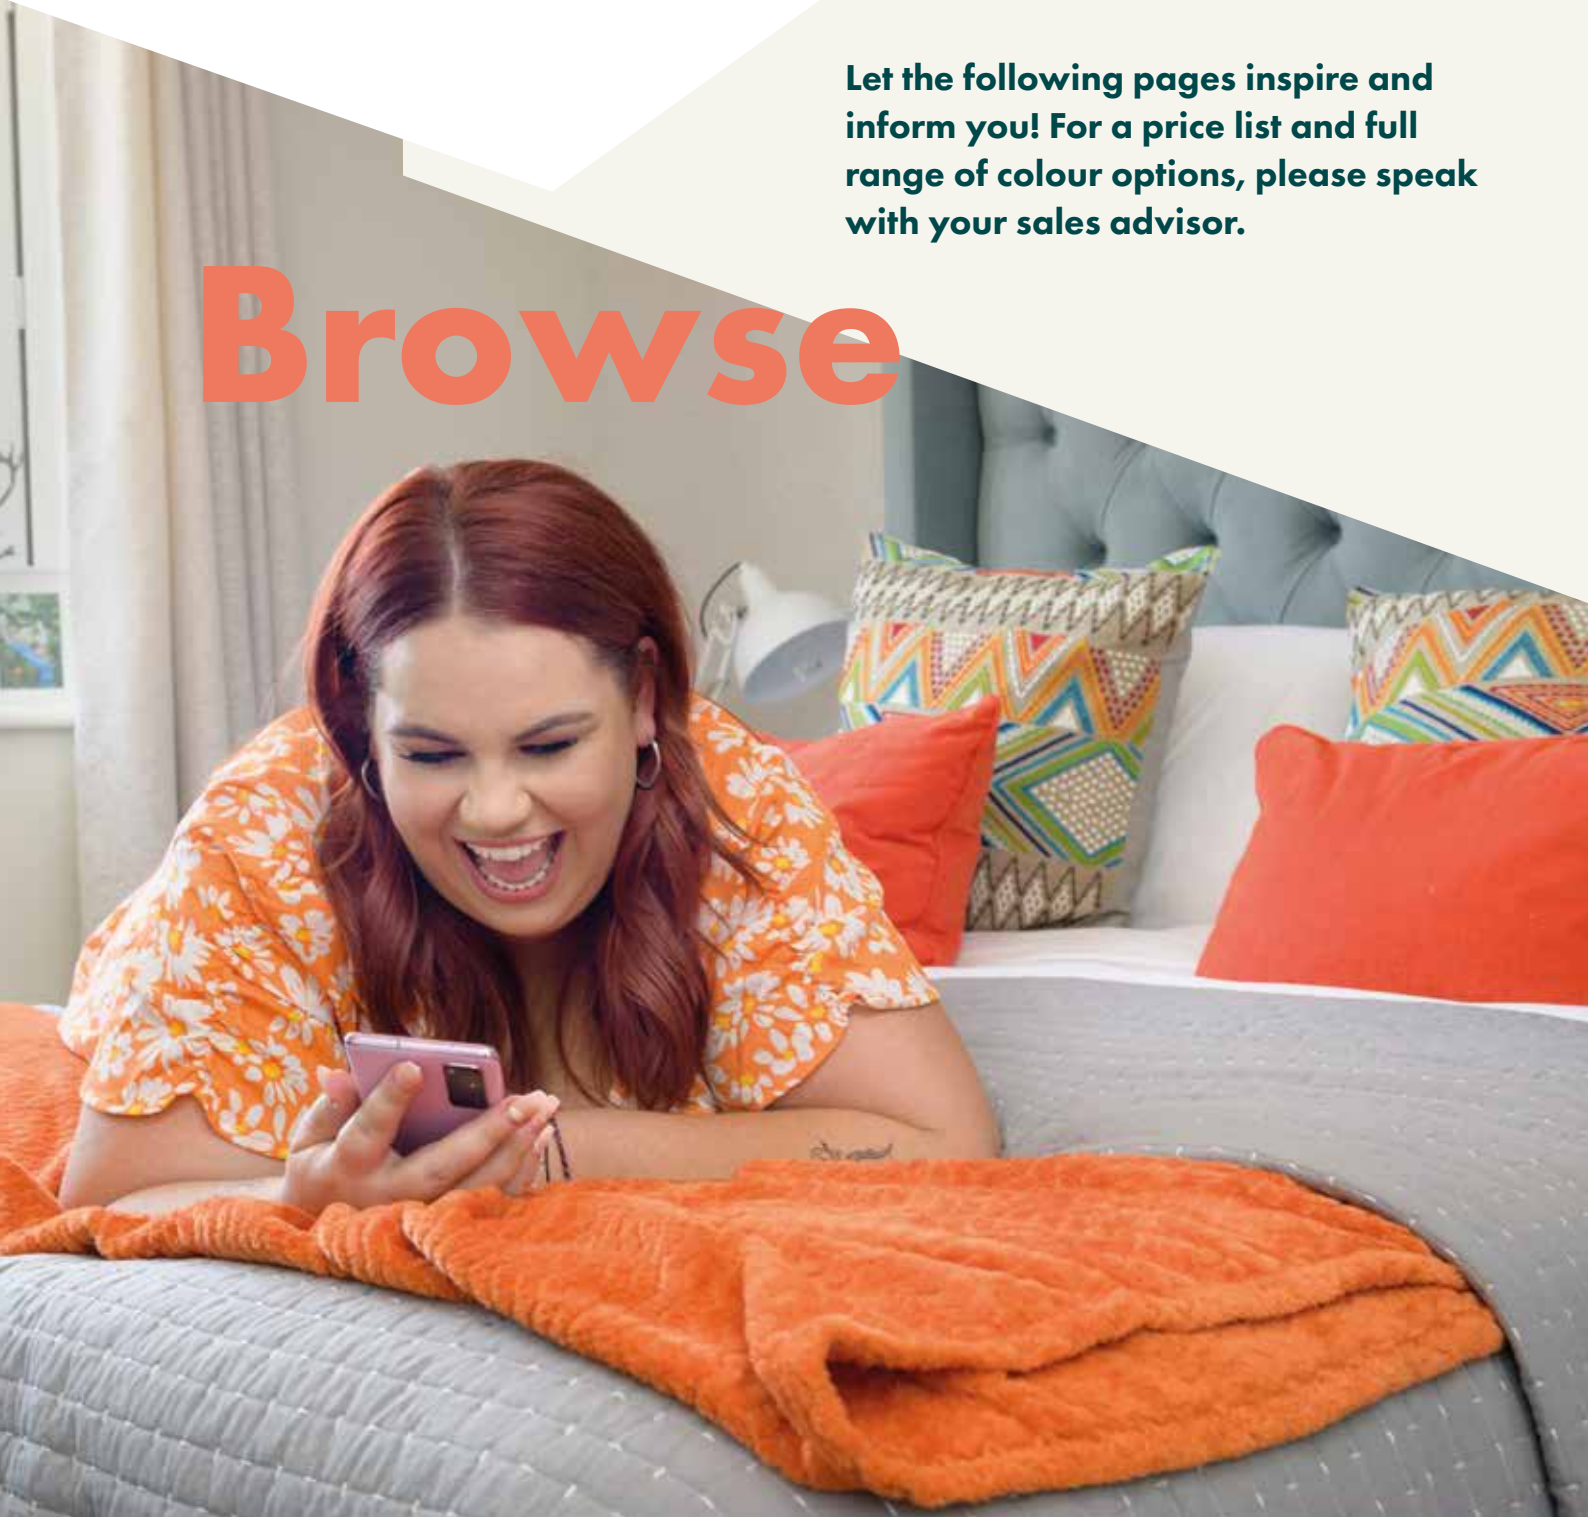

How it works

This Finishing Touches brochure is an introduction to our extensive choice of products, covering everything from kitchens and bathrooms to flooring, lighting and even the garage and garden.

There's a whole host of stylish and practical things for you to choose what works for you.

Let the following pages inspire and inform you! For a price list and full range of colour options, please speak with your sales advisor.

Browse

A few pointers

So what's the difference between an 'add-on' and an 'upgrade'?

Add-on

An item that isn't fitted as standard to your new Persimmon home, so you can choose to add it through Finishing Touches.

Upgrade

An item that is fitted as standard, but you'd like us to install a different/higher specification version of it.

And what are the Finishing Touches ranges?

Depending on the product, our range spans across Standard, Silver, Gold, Platinum, and Diamond - catering to every individual's unique style and preferences. Each option is colour-coordinated in the brochure, with physical samples on site reflecting this.

Standard Silver Gold Platinum Diamond

More inspiration?

Jump on to Instagram [#lovemypersimmonhome](#) and scroll through the gorgeous real-life photos posted by new Persimmon homeowners. It's a great way to get styling ideas before you choose your Finishing Touches!

Appointment prep

It's a good idea to jot down all your favourite things ready for your Finishing Touches appointment.

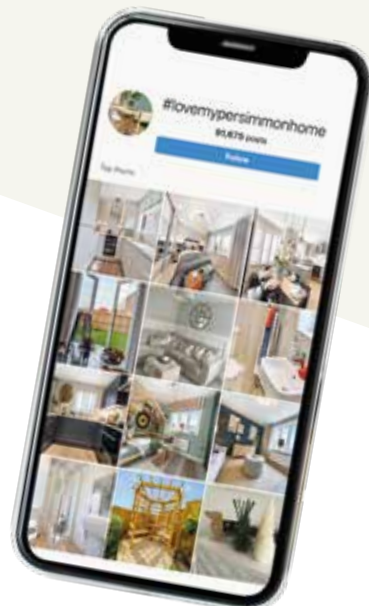

On the day, you can admire a whole host of samples and swatches for kitchen doors, worktops, carpets, tiles and more.

Be ready with any questions to ask your sales advisor too.

Timing is everything...

It's all about timing with Finishing Touches. The earlier you can make your choices the better, as there's usually a knock-on effect on electrics and plumbing in one way or another.

As a guide, all choices need to have been made by the time your roof is on, but don't worry, your sales advisor will explain all this to you.

Your kitchen

Where it all happens, the hub of family life and the heart of your new home. Now's the chance to get this room exactly how you want it.

Live the dream

A brand new home means your kitchen is a blank canvas, just waiting for you to add your own sense of style. It's time to create the kitchen you've always dreamed of.

Showstopping taps

Like to drill down on the detail? Then take a closer look at our kitchen mixer taps that come in a gorgeous range of designer finishes.

See page 19

Gorgeous granite

Upgrade to one of our gorgeous granite sinks and you could have the whole family fighting over the washing up! It's a great way to add a touch of class, colour and texture to your kitchen.

See page 18

Top of the tops

What's at the top of everyone's dream kitchen list? It has to be a fabulous worksurface with the virtually invisible sink. Upgrade your laminate worktops to a choice of quartz or premium porcelain worksurfaces.

Read more on page 14

On-trend cabinetry

Whatever kind of look you want for your kitchen, it all starts with the cabinetry itself. Our design team have pulled together a Pinterest-worthy collection to excite and inspire you.

For our take on the hottest trends see page 8 — 13

Cook like a pro

From induction hobs to touch-control, multifunction pyrolytic ovens and high-tech wireless control hoods, you'll switch your home cooking skills up a notch or two with our top brand integrated appliances. Check out our integrated dishwashers and fridge freezers too, all seamlessly built in for that look of luxury.

AEG  **Electrolux**

Cabinetry

Complete your new dream home by creating your kitchen in your own unique style*.

K100

The most exciting design decision for your new home has to be the kitchen. You'll see all the style and colour options during your Finishing Touches appointment, but in the meantime, here's a flavour of what might be on offer:

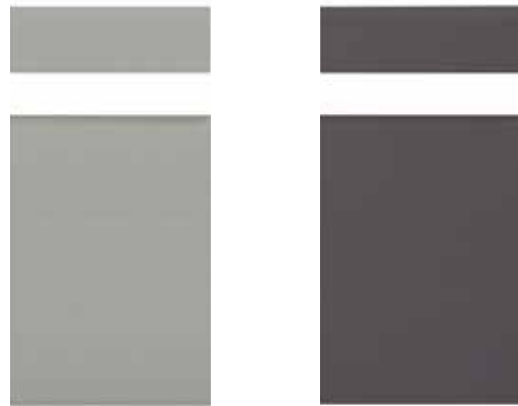

Painted shaker

Always a favourite and a timeless classic, our range includes both bold and neutral colours in paint effect to shake up the shaker look.

Handleless

If you like the totally seamless, minimalist look then this is the style for you. Available in a choice of modern shades and textures including matt and gloss.

Matt slab

Simple and understated, in a selection of neutrals and on-trend finishes, our matt slab doors give you a perfect backdrop on which to build your style.

Woodgrains

Add depth and character to your kitchen with one of our contemporary woodgrain finishes. The natural warmth of wood creates a whole new look.

Need some kitchen style inspiration?

Cabinetry extras

Task lighting

K103

Add quadrant stainless steel task lighting (per light).

Additional base unit

K102

Add base unit in lieu of appliance space.

Boiler housing

K101

Add housing for combination boiler in **utility** only.

K104

Add housing for combination boiler in **kitchen** only.

*Available on certain developments only. Utility room upgrades only available where a Utility room is featured in the house type layout. All appliance options are dependent on kitchen layout. Colours and shades of appliances may vary subject to manufacturers specification. Please see sales advisor for exact details.

Urban cool

Integrated dishwasher hidden inside

A rich, dark colour like this indigo blue gives the much-loved shaker style an edgy feel that would be right at home in a city apartment.

Contrasting quartz worksurfaces, undermounted sink, wood effect luxury vinyl flooring and high-spec appliances complete the urban look.

Gloss appeal

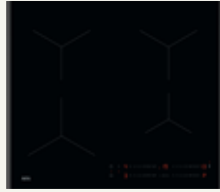

Scandi-style sophistication meets sparkling shine in a gloss handleless kitchen.

There's no fresher feeling than a bright, white kitchen. Combined with white quartz, the handleless gloss doors and worksurfaces blend almost seamlessly with monochrome clean lines.

Teamed with high-spec stainless steel and black glass appliances, an undermounted sink and chrome finish wall sockets, the result is the ultimate minimalist look.

Neutral zone

Pale and interesting in mellow tones, sees the classic shaker style in a whole new light. It creates a wonderfully understated, calming effect, just perfect for a busy kitchen.

It's not just the cabinetry that defines your kitchen's style — wall tiling and flooring make a big impact too

Matt is back

So tactile, matt textures are a firm favourite for modern interiors, not least of all in the kitchen.

A hint of colour works well with matt finishes, and brings out warmth and personality in a kitchen. It makes it easy to build on the look with colour-coordinated accents and accessories too.

Keep walls, worksurfaces and flooring plain and simple, and let the little details do the talking. A striking vase, a style-statement window blind or floor rug will draw everything together.

The wonder of quartz

Transform the heart of your home; discover the elegance and durability of Quartz worktops.

This upgrade is a daily source of pride, especially during your morning coffee routine.

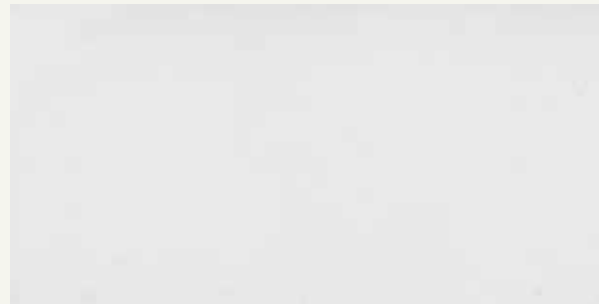

These sleek countertops aren't just nice to look at; they're also super smooth, cool to the touch, and incredibly tough. Built to handle the chaos of family life, they'll stay stunning for years. Surprisingly, they're not entirely stone—they're about 94% quartz, with around

6% resin and pigment. This mix makes them even stronger than natural stone, thanks to a bit of resin magic. The material is treated, pressed, and polished to achieve a brilliant and consistent finish with almost zero pores, adding to its hygiene factor. So, not only do they look good, but they're also practical and built to last.

Choose from striking finishes, hand-picked by our in-house team to complement our cabinetry designs and colours perfectly.

Volcano Light K200_VOL

New Yarra K200_YAR

Aspro K200_ASP

2

Upstand

20mm thick, 100mm high quartz upstands

3

Sink

Rangemaster 1.5 bowl undermounted sink

4

Tap

Single lever monobloc tap

Timeless porcelain

The difference a porcelain worksurface makes to your kitchen is so much more than just a finishing touch; it's the ultimate statement.

Italian craftsmanship at its best and a testament to enduring quality and style, porcelain is unparalleled in versatility for your home worksurfaces.

Porcelain seamlessly fuses functionality with stunning design; creating a hygienic, cool-to-touch surface that resists daily wear and tear.

Scratch-resistant, heat-resistant, and impervious to harsh chemicals, it stands resilient in the face of time. Turn your kitchen into a haven of both form and function with a reliable workhorse that allows you to cherish moments with loved ones in a space you adore.

Choose from striking finishes, hand-picked by our in-house team to complement our cabinetry designs and colours perfectly.

Your kitchen

Sink & taps

We all spend far less time at the kitchen sink nowadays, but that's no reason for it not to look fabulous.

Elements Topaz granite sink

Made from a super-tough composite material 80% quartz mixed with acrylic, these sinks look and feel like stone, with the added benefit of improved scratch, biological and UV resistance. Available in 4 stunning colours to complement our laminate* worktops range, they come in single bowl and 1.5 bowl options, with a sleek drainer design.

This upgrade includes a Leisure AquaTech mixer tap in the finish of your choice.

Arctic White K302_ARC

Charcoal K302_CHAR

Concrete K302_CON

Pebble K302_PEB

Elements 1.5 bowl

K302**

Upgrade an existing 1.5 bowl sink to the Elements 1.5 bowl model.

Elements single bowl

K303

Add a single bowl Elements sink (utility room only).

* Topaz igneous granite sinks are designed for installation with laminate worktops and cannot be selected together with quartz and porcelain worksurfaces.

** See images for specific codes for colour variations.

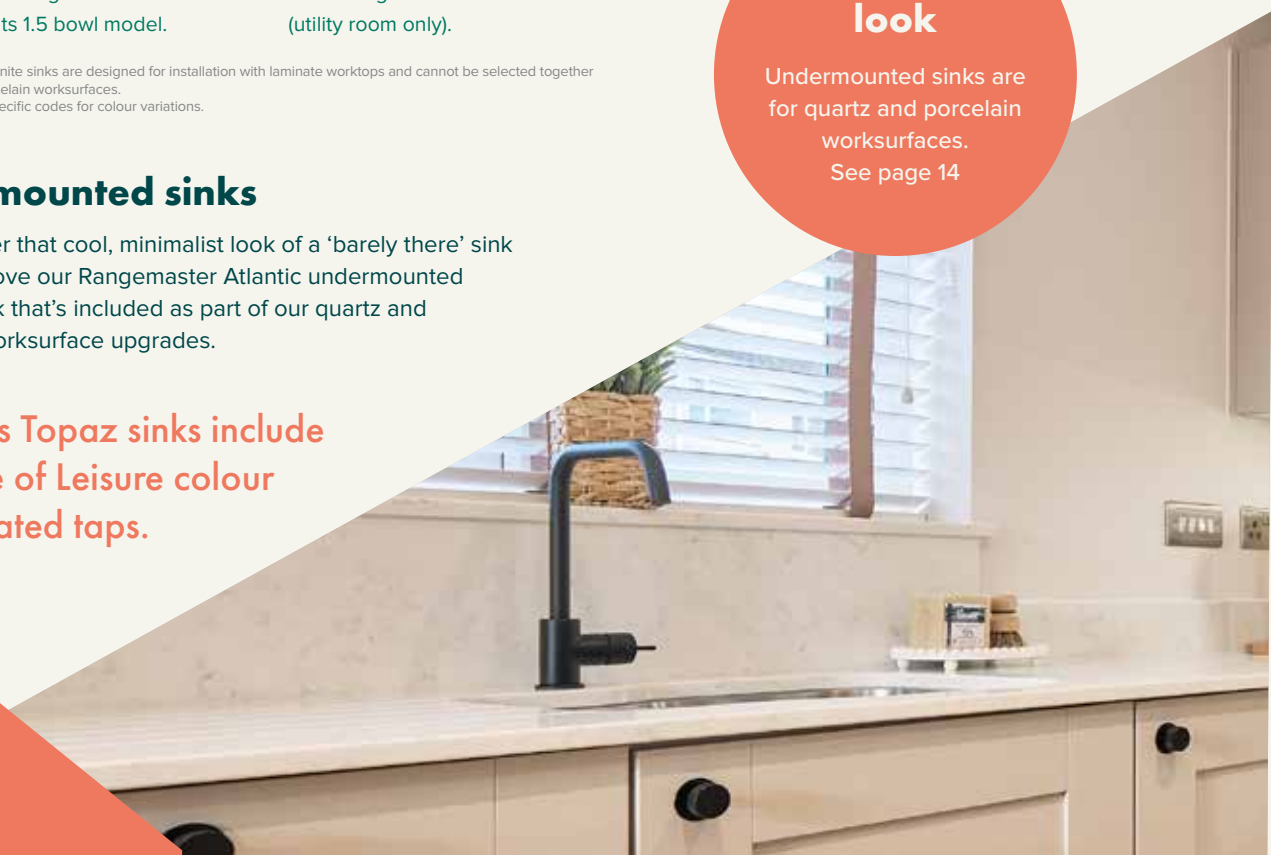

Undermounted sinks

If you're after that cool, minimalist look of a 'barely there' sink then you'll love our Rangemaster Atlantic undermounted 1.5 bowl sink that's included as part of our quartz and porcelain worksurface upgrades.

Elements Topaz sinks include a choice of Leisure colour coordinated taps.

Get the look

Undermounted sinks are for quartz and porcelain worksurfaces. See page 14

If you're a fan of stainless steel in the kitchen, we've got the following upgrade options to choose from:

Rangemaster Atlantic single bowl

K204

You can also add a single bowl Rangemaster Atlantic undermounted sink to your utility room, if you are upgrading to quartz (K201) or porcelain (K251) worksurfaces there too. They're not suitable for installation in laminate worktops.

Rangemaster Atlantic 1.5b sink

K311

Upgrade your standard single bowl sink to a bowl and half option (kitchen layout dictates compatibility). They're not suitable for installation in laminate worktops.

Leisure Aria 1.5b sink

K310

Upgrade your standard single bowl sink to a bowl and half option (kitchen layout dictates compatibility). Please speak to your sales advisor.

Leisure Aria 1.0b sink

K300

Subject to space availability in your new home, for the height of practicality, opt to add a single bowl sink and Leisure AquaTech mixer tap to your utility room. All our stainless steel sinks are designed to be fitted into a laminate worktop.

Bronze **K304_BRZ**

Chrome **K304_CHR**

Matt Black **K304_BLK**

Leisure AquaTech taps

K304

These Leisure AquaTech mixer taps are included as part of the package with our Elements igneous sink upgrade, but you can still choose to upgrade the tap only on your existing stainless steel sink, to add an extra touch of style.

Your kitchen

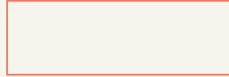

Kitchen & utility tiling

Add your personal sense of style with our huge collection of ceramic wall tiles.

Our upgrade tiles are offered in a greater choice of formats:

400mm x 150mm

300mm x 100mm

245mm x 75mm

Our ceramic wall tile collection has been hand-picked to ensure we have a comprehensive choice of styles to suit everyone's taste and decor. Here's just a few of our top picks:

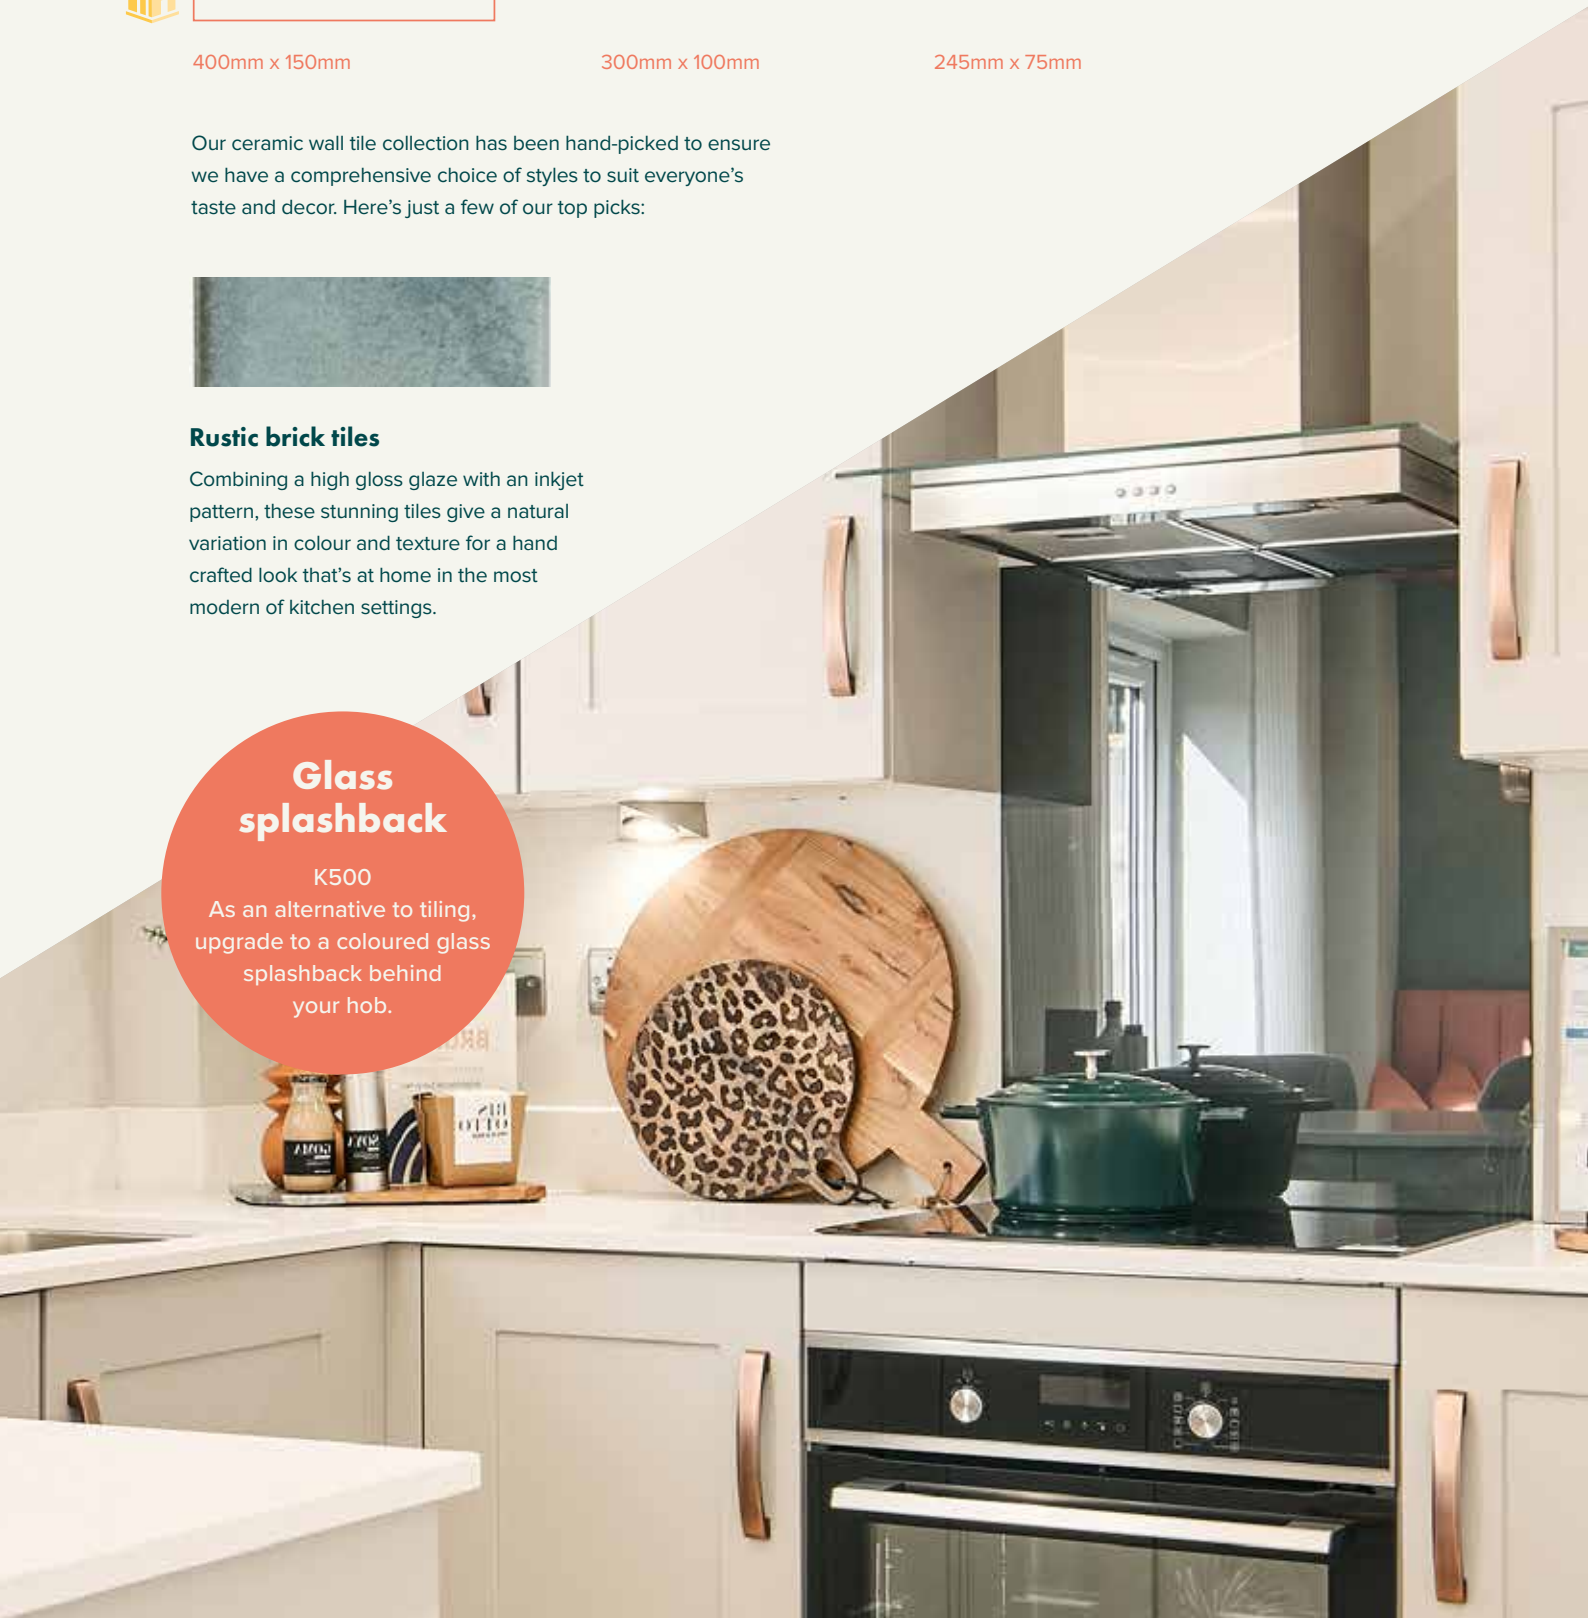

Rustic brick tiles

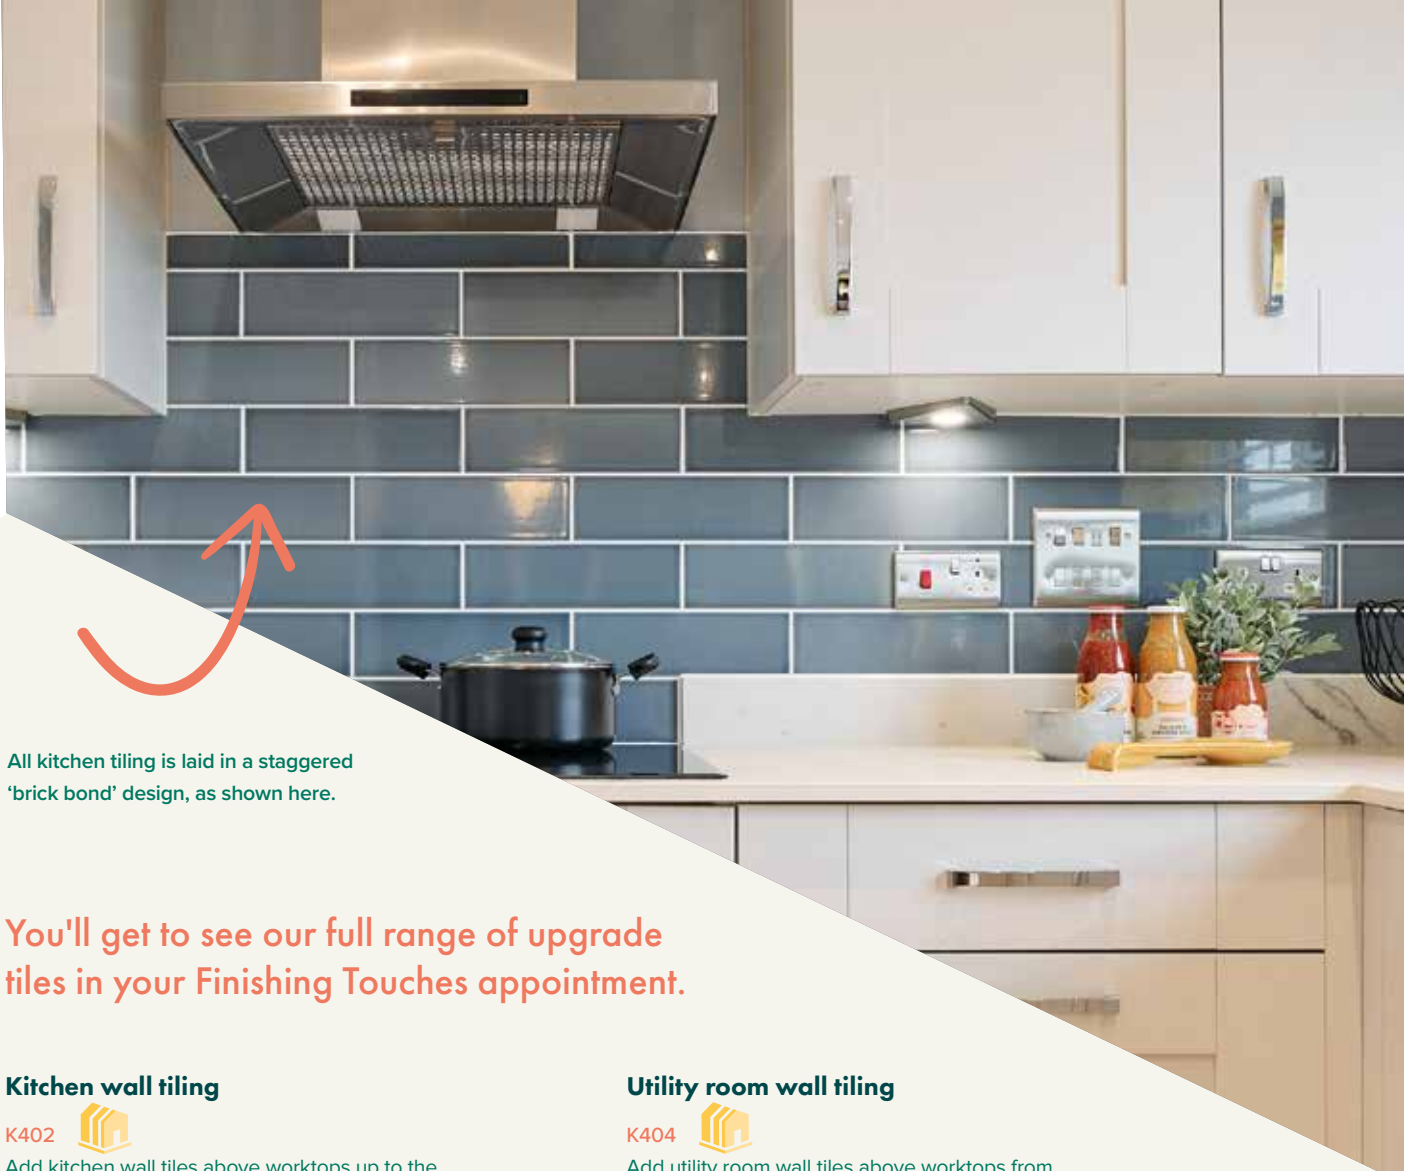

Combining a high gloss glaze with an inkjet pattern, these stunning tiles give a natural variation in colour and texture for a hand crafted look that's at home in the most modern of kitchen settings.

Glass splashback

K500

As an alternative to tiling, upgrade to a coloured glass splashback behind your hob.

All kitchen tiling is laid in a staggered 'brick bond' design, as shown here.

You'll get to see our full range of upgrade tiles in your Finishing Touches appointment.

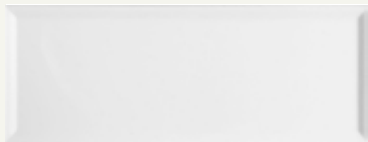

Kitchen wall tiling

K402 

Add kitchen wall tiles above worktops up to the underside of your wall units from the Gold range of ceramic tiling.

K403 

Add kitchen wall tiles above worktops up to the underside of your wall units from our Platinum range of wall tiles.

White bevelled brick tiles

A firm favourite that's always on trend, our glazed white 'subway effect' bevelled brick tiles create a clean, fresh and contemporary backdrop to your kitchen or utility room.

Utility room wall tiling

K404 

Add utility room wall tiles above worktops from our Gold range of wall tiles.

K405 

Add utility room wall tiles above worktops from our Platinum range of wall tiles.

Heritage style slim tiles

Available in a stunning colour palette to complement our kitchens, our heritage slim brick tiles give a real feel of a nostalgic era, when every tile was individually made by hand.

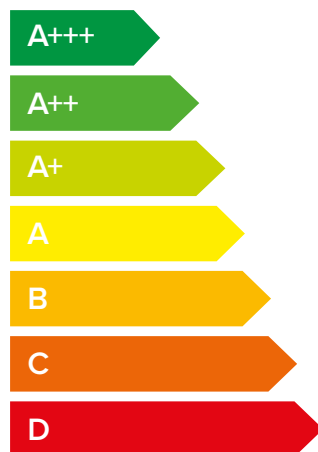

Please note: The colour samples shown in this brochure are representative only. For more precise information on the material colours, please see your sales advisor. Subject to/dependent on site specific planning permission/restrictions.

Your kitchen

Appliance packages

Upgrade your whole cooking experience in your new home with one of our tailormade packages from premium appliance brands Electrolux and AEG.

A+++ is the most energy efficient and D the least efficient.

Energy explained

Energy ratings for cooking appliances are designed to help you understand how energy efficient products are in comparison to one another.

The system used for rating products is changing. Washing machines, washer dryers, dishwashers, fridges and freezers are already using the new rating scale A-G introduced in March 2021, but at the moment, cooking appliances are still using the A+++ – D scale.

Scan the code above to read more on the www.energylabel.org.uk website.

Please be aware that there may be changes to the legislation governing appliance energy performance labels, which is beyond the control of Persimmon Homes. Customers should satisfy themselves that they have the correct information when choosing an appliance.* Only available with compatible hoods. All images and reference numbers in this brochure are correct at the time of going to print. They may be subject to change without prior notice. Products may differ from those described or illustrated. Persimmon reserves the right to alter specification without prior notice. Availability of all items is subject to stage of construction. Subject to/dependent on site specific planning permission/restrictions. Please consult your sales advisor for more information.

 Electrolux

Package 1

K600

- LED lighting and 3+ intensive speed settings.
- Hob to hood (H2H) wireless control compatible

Integrated appliances

You'll love how much neater your kitchen looks with all your appliances seamlessly tucked away.

New energy ratings

The appliance energy label scale has been reset due to many products being so energy efficient they exceeded the A rating, into A++ and A+++. The new revised scale A to G gives manufacturers room to keep improving, to keep innovating their way up the scale with more efficient products.

For example, anything rated A+ in the old system, is now rated F. So our E and F-rated appliances are still right up there when it comes to energy efficiency!

Scan the code above to read more on the www.energylabel.org.uk website.

A is the most energy efficient and G the least efficient.

Laundry

Electrolux

Electrolux washing machine

K713 / E772F402BI

*Available on certain developments only. Utility room upgrades only available where a Utility room is featured in the house type layout. All appliance options are dependent on kitchen layout. Colours and shades of appliances may vary subject to manufacturers specification. Please see sales advisor for exact details.

Please be aware that in line with EU Law (Regulation (EU) 2017/1369) the energy labels categories for washers, dishwashers and refrigeration products will be adjusted to reintroduce the simpler A to G scale. The energy efficiency class label of your product may change but this will not effect the efficiency of your product. Persimmon Homes endeavours to provide the correct information in this brochure at all times but would advise you enquire with your sales advisor for the correct information at the time of purchase. Energy performance labelling is correct at the time of going to press. Please be aware that there may be changes to the legislation governing appliance energy performance labels, which is beyond the control of Persimmon Homes. Customers should satisfy themselves that they have the correct information when choosing an appliance. All appliance options are dependent on kitchen layout. Colours and shades of appliances may vary subject to manufacturers specification. Please see sales advisor for exact details. Subject to/dependent on site specific planning permission/restrictions.

Your bathroom

Whether it's the family bathroom, your personal en suite or the downstairs cloakroom, you'll want to reflect your own sense of style in even the smallest rooms.

Shaver Point

L008

Add a shaver point in brushed steel, polished chrome or black nickel. (see page 57)

Wall-to-wall style

While we're building your new home, it's the perfect time to upgrade your tiling, so it's all professionally done ready for when you move in. You can go for our luxurious Finishing Touches range, or increase the area tiled with our standard range — the choice is yours.

See page 34

Shower power

It's no wonder showering is overtaking bathing in popularity nowadays. A quick, invigorating shower fits with our busier lifestyles and saves energy and water too. We've got some great showering options for you to add or upgrade in your family bathroom or en-suite.

See page 37

Warm & cosy

Step out of your shower or bath and be welcomed by a snuggly warm towel. Why not enjoy the height of luxury in your new Persimmon home?

See page 35

Please note: B501, B503 and B505 are part of the Pisa Plus range and only compatible with Air Source Heat Pumps, sized in line with building regulation requirements. The colour samples shown in this brochure are representative only. For more precise information on the material colours, please see your sales advisor. All images and reference numbers in this brochure are correct at the time of going to print. They may be subject to change without prior notice. Products may differ from those described or illustrated. Persimmon reserves the right to alter specification without prior notice. Availability of all items is subject to stage of construction. Subject to/dependent on site specific planning permission/restrictions.

Showering

Our preference for a shower vs a bath has been a long-held debate for decades. While the speed and convenience of showering has soared in popularity, a lot of us Brits still love a long, relaxing soak! In a Persimmon home, you get the choice of both.

What comes as standard in my Persimmon home?

Every Persimmon home with an en suite is fitted with a separate shower, usually a thermostatic mixer. House types without an en suite are fitted with a hair rinse facility over the bath as standard. Your sales advisor will confirm what's included with your new home - please ask for your development's full specification details.

With Finishing Touches, you can:

Add a shower over the bath in your main bathroom, this includes the shower screen.

Upgrade the mixer shower in your en suite/s to a different model.

Electric showers

If you're thinking of fitting a shower over the bath in your main bathroom, the time to do it is now, before you move in. That way, all the plumbing and wiring is neatly done by our professional tradespeople as part of the overall build of your new home, not as an afterthought.

You can choose from the following models, from leading brand Mira:

Mira Azora 9.8kW

B620 - Upgrade / B621 - Add

- Hi-tech styling with frosted glass
- Thermostatic temperature control
- Mira Sensi-flo™ built-in safety technology
- Mira Clearscale™ technology cuts limescale by 50%
- Push button on/off for easy control
- Phased shutdown safety feature
- 4- spray, multi-function rub-clean showerhead

* Tiling options

See page 34
or talk to your sales advisor.

Where you have chosen to add a shower, you must also add the shower over bath tiling option.

Mira Azora Dual 9.8kW

B622 - Upgrade / B623 - Add

- Hi-tech styling with frosted glass
- Features 2 showerheads for ultimate convenience — 200mm overhead and 90mm handset
- Thermostatic temperature control
- Mira Sensi-flo™ built-in safety technology
- Mira Clearscale™ technology cuts limescale by 50%
- Push button on/off for easy control
- Phased shutdown safety feature
- 4-spray, multi-function rub-clean showerhead

Mixer showers

For a sleeker, more minimalist look, mixer showers win hands down over other shower types.

With a Mira mixer valve professionally built in behind your tiling and installed to run off your boiler, the result is high performance with a seamless finish. Retro-fitting to this quality after you've moved in is hard to achieve, so subject to your build stage, we would highly recommend any shower upgrades or additions are made as part of the build process.

You can choose from the following models, from leading brand Mira.

Mira Activate digital 'smart shower'

B624 - Upgrade / B625 - Add

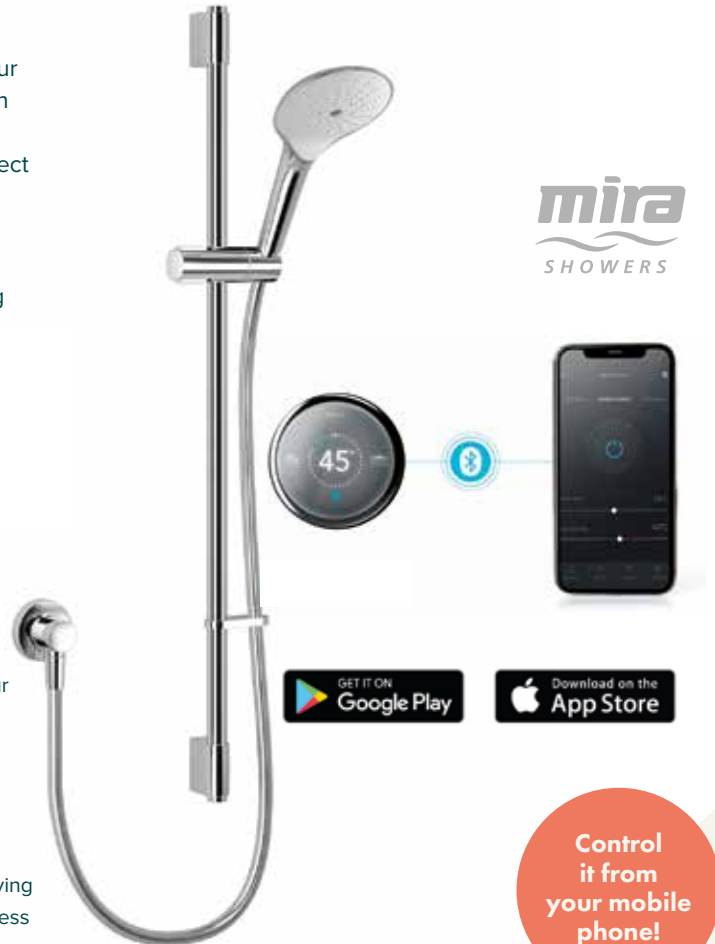

The Mira Activate digital is a thermostatic mixer shower that offers the very latest in showering technology for your new Persimmon home.

Imagine if your shower was always ready, waiting and perfect. Every time. A shower that you could control with your phone, from the comfort of your bed. This is your shower like you've never known it before.

- ✔ An intuitive digital controller offers in-shower control at your fingertips, with a crystal-clear modern display showing live temperature and flow rate.
- ✔ Choose between the award-winning Switch handset or luxurious 250mm deluge head – and discover spa-level luxury right at home.
- ✔ The Mira Showers App connects to your Mira Activate – giving you the ability to control your shower remotely, quickly access help and support, and even track your water usage.

In addition, it's packed with all the usual advanced technology and safety features you would expect from Mira.

- Flawless design with sensational performance
- Precise, thermostatic temperature control
- Simple, start/stop push-button
- Water-saving eco mode
- Maximum temperature stop — keeps water temperature safe
- 4-spray Red Dot design award-winning 'Switch' handset

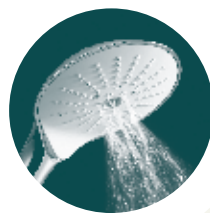

Control it from your mobile phone!

Saturate

Fully drenching spray

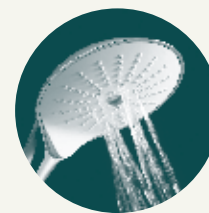

Stimulate

Concentrate energising spray

Soothe

Soft spray for sensitive skin

Soak

Fine soaking water spray

* Tiling options

See page 34
or talk to your sales advisor.

Where you have chosen to add
a shower, you must also add the
shower over bath tiling option.

Mira Minimal ERD

B626 - Upgrade / B627 - Add

- Streamlined, minimalist design
- 2 showerheads for ultimate convenience — deluge head & flexible handset
- Precise, thermostatic temperature control
- Magni-flo™ technology — more flow, even at low water pressures
- Mira CoolShield™ technology keeps all touchpoints cool
- Maximum temperature stop — keeps water temperature safe
- Large 11cm single spray, rub-clean showerhead

Mira Minimal EV

B628 - Upgrade / B629 - Add

- Streamlined, minimalist design
- Precise, thermostatic temperature control
- Magni-flo™ technology — more flow, even at low water pressures
- Mira CoolShield™ technology keeps all touchpoints cool
- Maximum temperature stop — keeps water temperature safe
- Large 11cm single spray, rub-clean showerhead

Shower shown in main image is Mira Mode featuring a Switch handset which is included with the Mira Mode only. PLEASE NOTE: It is not possible to include two electric showers in one property. All images and reference numbers in this brochure are correct at the time of going to print. They may be subject to change without prior notice. Products may differ from those described or illustrated. Persimmon reserves the right to alter specification without prior notice. Availability of all items is subject to stage of construction. Subject to/dependent on site specific planning permission/restrictions. NOTE: On standard specification in homes with an en-suite there may be no shower above the bath.

Your living space

You can add and upgrade with Finishing Touches all around your new home. Here's a quick intro...

Smart heating

Imagine the luxury and convenience of controlling your heating from your mobile phone, wherever you are – at work, at the supermarket, or even just from the comfort of your sofa!

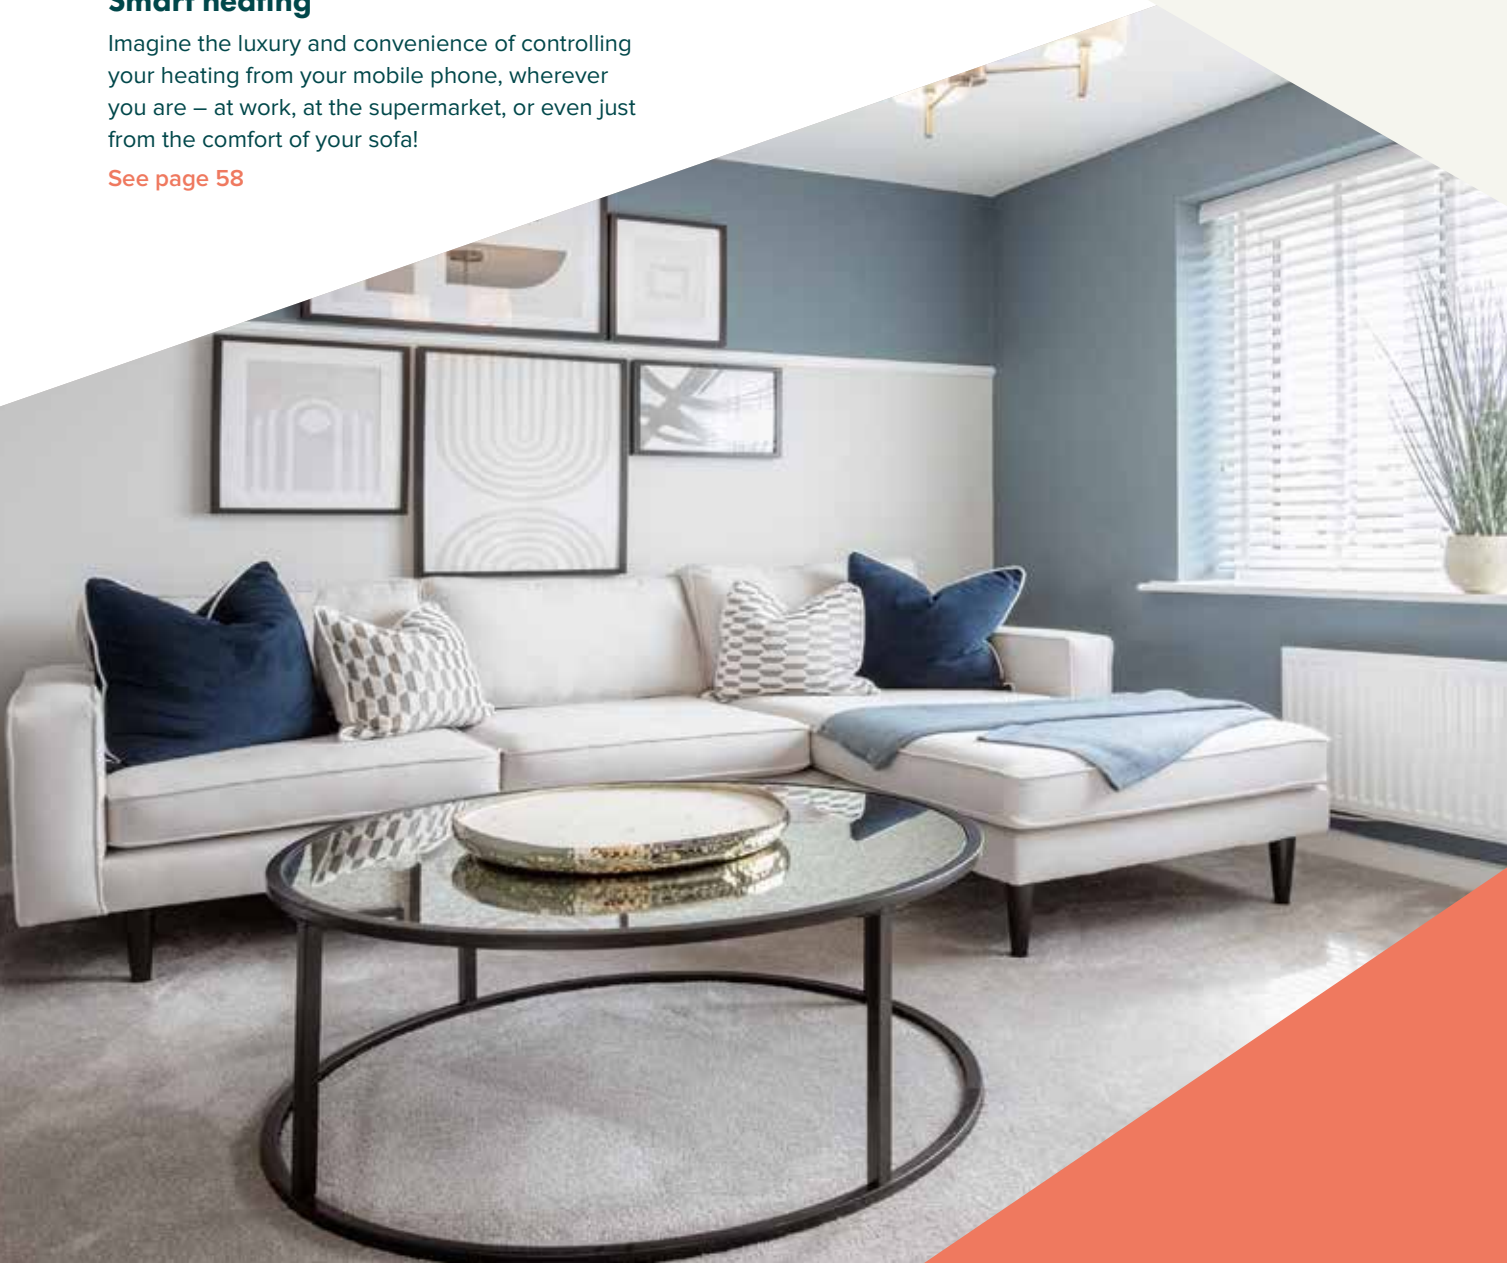

[See page 58](#)

Socket & lighting upgrades

Nothing is standard with Finishing Touches, and that includes sockets and lighting too. Take a look at our stylish options.

[See page 56](#)

Radiating style

Fancy your heating with a bit more pizzazz? Take a look at our vertical designer radiators, available in a choice of colours to suit your decor.

See page 54

Storage stories

Make a pact with yourself to get organised and stay organised in your new home! Our made-to-measure wardrobes and home office furniture make it easy.

See page 48–53

Do you WFH?

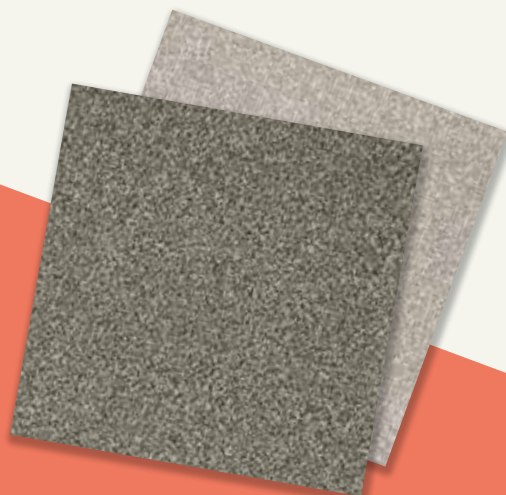

There's no need to be perched on the sofa or overtaking the kitchen when you work from home. Let us create a smart, tailor-made workspace for you.

See page 48

Flooring

One of the most obvious things to get sorted professionally before you move in is your flooring, to avoid all the upheaval of furniture moving – again! Choose from a fabulous range of carpets and vinyl, including the latest in LVT (luxury vinyl tiles).

See pages 42 – 47

Soft pile carpets

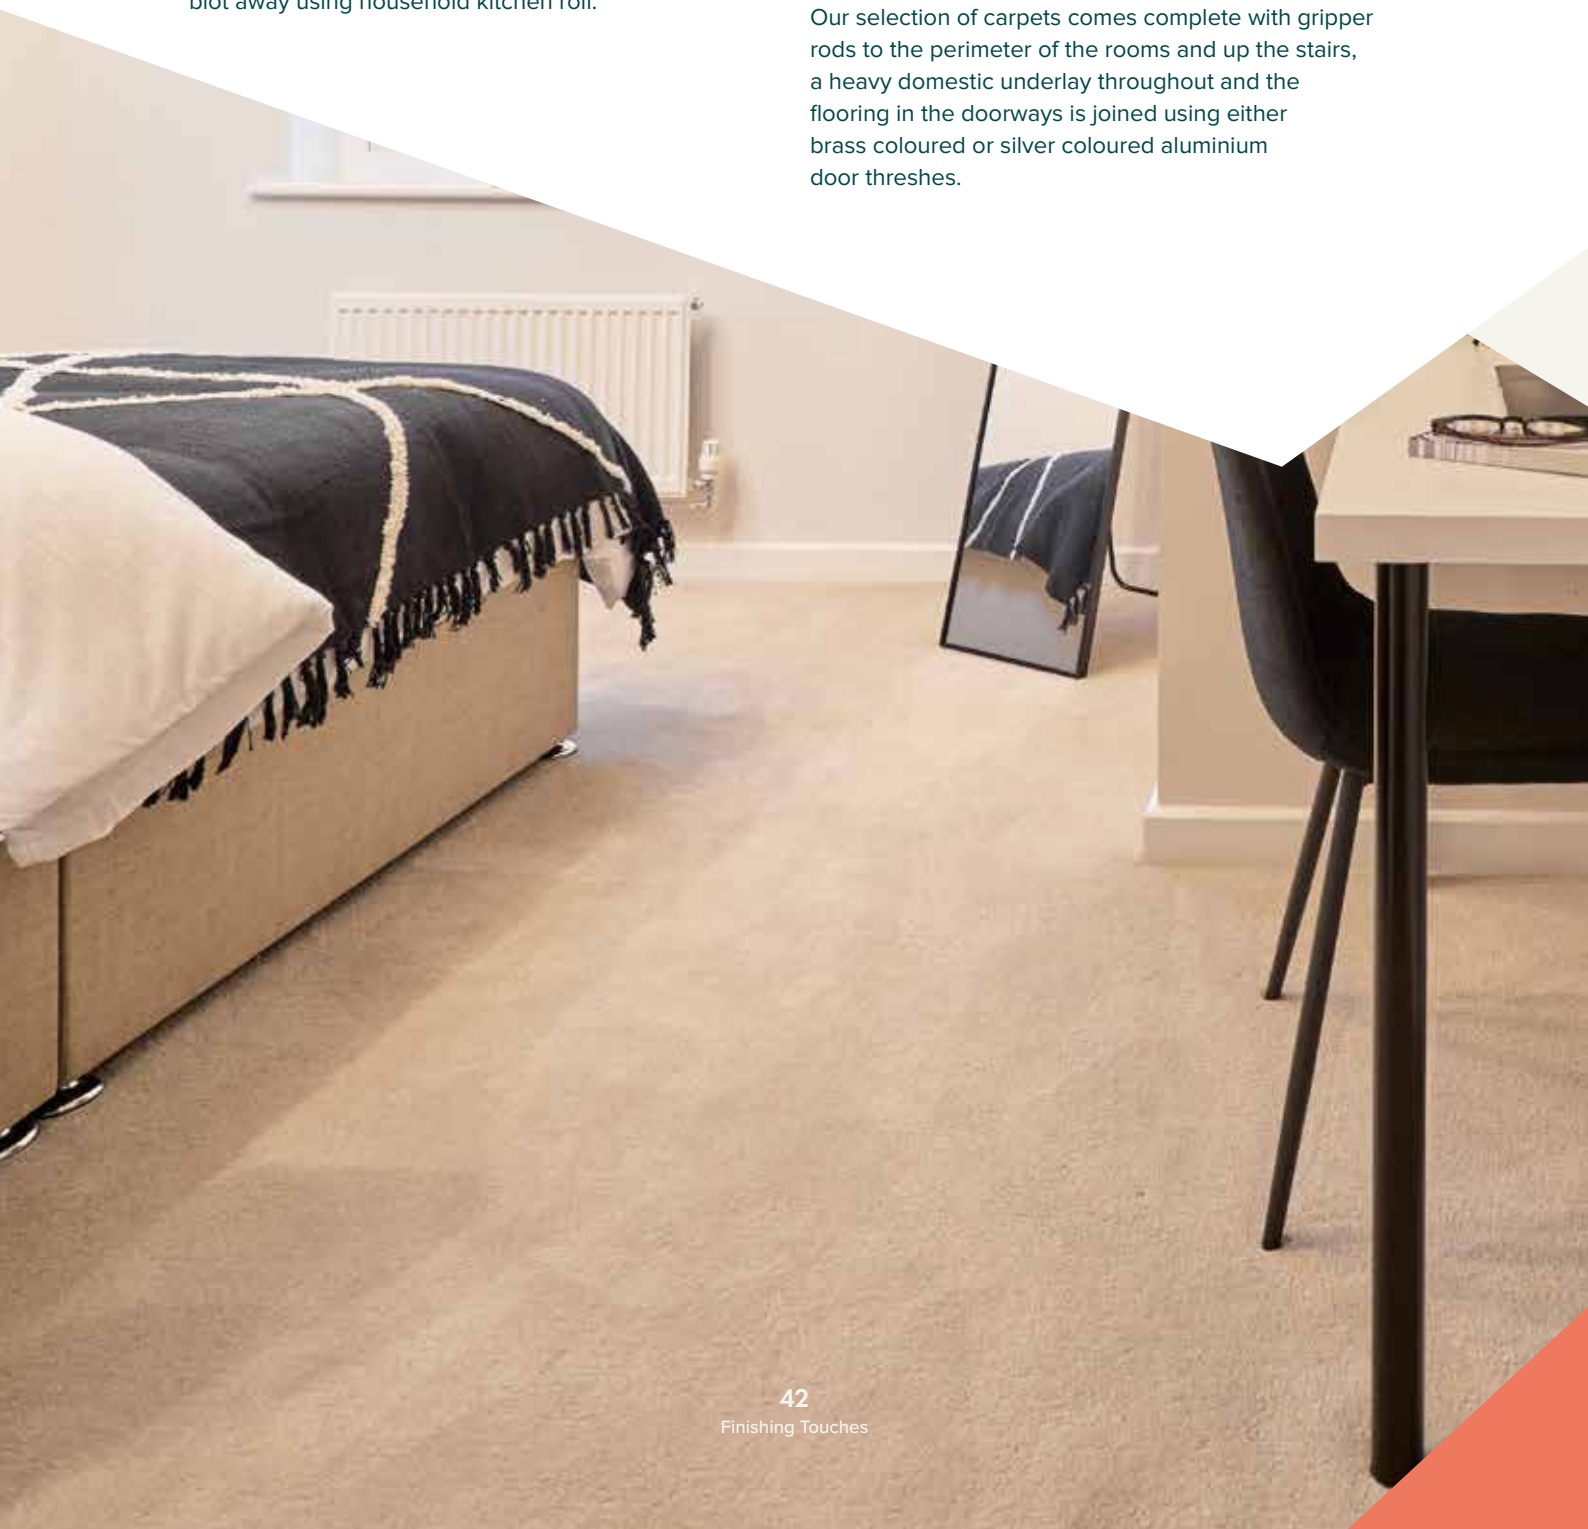

We want to make sure you get the very best start with your Persimmon home, so you can just move in and get on with enjoying it.

Advanced technology

Made using specially developed high-quality polypropylene fibres – this range of carpets feel soft and luxurious and are completely practical. Their stain resistant properties mean that spills or stains literally 'sit' on the surface waiting for you to clean or simply blot away using household kitchen roll.

You can even use household bleach for those really stubborn stains, without marking your carpet, so you can enjoy your new home in the confidence that your beautiful new carpet can take all of life's strains without any of the stains.

Our selection of carpets comes complete with gripper rods to the perimeter of the rooms and up the stairs, a heavy domestic underlay throughout and the flooring in the doorways is joined using either brass coloured or silver coloured aluminium door threshes.

- Deep pile Saxony carpets
- Practical Twist pile carpets
- Elegant & stylish ranges
- Contemporary colour palettes
- Stain resistant
- 100% bleach cleanable
- Guaranteed stain free for 10 years

Stain resistant carpets

Modern life makes greater demands on the carpets in your home. Today's busy lifestyles need a carpet that not only looks good – but performs under the most arduous conditions; Finishing Touches introduce the Regency Carefree stain resistant carpet range which is manufactured with this in mind.

Porcelain flooring

The height of style and practicality, porcelain floor tiling will keep your new Persimmon home looking good for years to come.

Choose porcelain tiling for your downstairs and you'll never look back. There are so many great colours and designs in our Finishing Touches range. Your tiles will be laid by professionals as one of the last build stages, so it's all beautifully done and ready for you to move in.

Why choose porcelain flooring? It's incredibly hard-wearing and slip-resistant, making it ideal for kitchens, entrance halls and cloakrooms. Running from room to room looks stunning and it's so hygienic and easy to clean too.

F601

Home office

Planning to work from home? Then take a look at our great range of fitted furniture, specially designed to suit you and your new home.

GCODING[®]

Our Home Study range is designed for optimal installation in each particular room.

Depending on the room size the home office will run along one wall, or will be of an 'L' shape type layout along two walls.

In either case the wall storage will comprise a combination of open cabinets; cabinets with doors and the floor based storage will comprise a combination of units with drawers and doors.

Both options are available with a flat fronted contemporary door style or a single panel inset more traditional 'shaker' style installation, in a range of finishes.

Socket upgrades and Ethernet cabling extensions (see pages 57 and 59 respectively) can be added to work in conjunction with a home office.

Please see your sales advisor who will be able to provide more information on this exciting range.

GOODING[®]

Sliding wardrobes

Luxurious, stylish and super space-efficient, built-in bedroom storage never looked so good.

Evolution Plus

The ultimate designer backdrop for your bedroom, choose from a wide range of mirrored, glass or paint-effect panels from a palette of on-trend finishes. All feature enhanced, smooth-gliding soft-close door guides, behind which you'll find tailor-made internal fittings that offer the ultimate in wardrobe organisation.

You can see the full range of options in your Finishing Touches appointment.

Door sizes

L201 A	2 Door	0 - 1500mm
L201 B	2 Door	1501 - 2000mm
L201 C	3 Door	2001 - 3000mm
L201 D	4 Door	3001 - 4000mm

Evolution Multi Panel

Make a statement with your choice of mirror, glass and solid multi panels on each door.

Direct from the specialists

A privately-run business, the Gooding family have been gracing new homes with their furniture for over 50 years. Manufactured here in the UK. They use their own team of professional installers to fit each and every wardrobe with care and pride. All Gooding wardrobes are individually made to measure, making the very best use of the space and layout in every bedroom.

Having wardrobes ready and waiting for when you move in isn't just the smart thing to do, it's totally practical too. Choose from internal fitment options to tailor your wardrobe to suit you (supplied as shown opposite), then just pop your clothes straight in on moving day! No wall-scraping lugging of old wardrobes up the stairs, or spending hours on flat-pack.

All images and reference numbers in this brochure are correct at the time of going to print. They may be subject to change without prior notice. Products may differ from those described or illustrated. Persimmon reserve the right to alter specification without prior notice. Availability of all items is subject to stage of construction. Designed with 2-8 door configurations to maximise your space, all hinged wardrobes are fitted with your choice door style, framework finish and internal fittings.

Choose from a standard flat top wardrobe or an angled option for rooms with sloped ceilings and customise with a choice of woodgrains, on-trend painted or high gloss door options.

Let's talk options
Your sales advisor will talk you through the various options during your Finishing Touches appointment.

Fixtures & fittings

It's the little details that everyone will notice, including you.

Merlo radiator

L800

The stylish rectangular panels of the Merlo emphasise the simplicity of design.

These striking radiators come in anthracite or white finishes, as singles or doubles, all incorporating a sleek and stylish, eye-catching design to complete any room.

Note: The size of radiator specified for your home is dependent on the BTU rating required to meet the required heat output based the particular room it's in. Also, the radiator might not be compatible with ASHP, dependent on the heating design and required output.

Colour options

White L800_WHT

Anthracite L800_ANT

* Please note this option may reduce the heating efficiency within the room. Heating calculations will dictate if option can be accommodated. Precise size of the required designer radiator is dependent on housetype. In certain housetypes, rooms may not accommodate the required size of a designer radiator. Please consult sales advisor for details specific to your housetype. All images and reference numbers in this brochure are correct at the time of going to print. They may be subject to change without prior notice. Products may differ from those described or illustrated. Persimmon reserves the right to alter specification without prior notice. Availability of all items is subject to stage of construction. Subject to/dependent on site specific planning permission/restrictions.

Access doors

O106

Add a personnel door to access the garage from inside your home (dependent on housetype and stage of construction). The style of door may vary from site to site. Ask your sales advisor for more information.

Your outdoors

We want you to enjoy your outdoor space as much as you enjoy being indoors in your new Persimmon home.

Paving the way

Love to dine al fresco? Let's make it possible from day one with a beautiful patio professionally laid for you and ready to enjoy.

See page 62

Green with envy

Don't be eyeing up your neighbour's lush green lawn and wishing you'd opted for one too. Have it professionally laid before you move in.

See page 62

Light it up

Whether it's to enable you to enjoy your garden into the evening, or for added security, it's a great idea to get outdoor lighting installed as one of your Finishing Touches.

See page 64

Water on tap

Your lawn and flowerbeds will be glad you had an outside tap fitted — and so will you. Keep everyone happy from the day you move in.

See page 62

Outdoor features & fixtures

Even if you're not the gardening type (yet), you'll appreciate some of these practical garden must-haves to get your outdoor space ready for when you move in.

Single external socket

O103

Add single electrical external socket (including internally mounted switched fused spur isolation switch).

Garden tap

O104

Add tap to garden, fitted adjacent to kitchen or utility room complete with isolator valve.

Paving

Buff Riven

O102 Paving flags per m²

Grey

O101 Paving flags per m²

Turf

O100

A professionally-laid lawn in your back garden, ready for when you move in.

Note: When selecting O100 it's recommended that the external tap item O104 is installed.

Built-in car charging

Do you own an electric car or are you planning to sometime soon?

If so, it makes a lot of sense and is a lot less hassle to have a charger fitted as part of the build rather than to have one retro fitted later. Our untethered 7kW charger* is ideal for overnight charging.

O107
EV charging point

*For illustrative purposes only. Product types and specifications are subject to change and may vary from region to region.

Your outdoors

Lighting & security

External lighting is not only welcoming to come home to, it's practical and adds another level of security to your new home.

Stainless steel lantern

L907 / PSM-4612LU

Add stainless steel external lantern with PIR sensor, switched internally.

External light

L906 / PSM-204LU

Add contemporary "up and down" external light.

External LED security lamp

L905 / PSM-FL30PIR-BLK

Add external LED security lamp with PIR sensor, switched internally.

Packages

Light & security package

M200

Light & security package with alarm, contemporary up-and-down light, external security light & door bell.

Light & security package
